DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 19 December 2005 has been entered.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 2, 4, 5 and 10-19 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent Application Publication 2003/0004467 to Musick et al. (hereinafter "Musick").

Musick shows an administering apparatus with dosage display having a casing 2, driven device 8, dosing means 3 and drive device 5. See Figures 1-6 and paragraphs 43-45.

Art Unit: 3767

Allowable Subject Matter

3. Claims 3 and 6-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

4. Applicant's arguments, see p. 7, lines 1-21, filed 19 December 2005, with respect to claims 1-19 have been fully considered and are persuasive. The obviousness-type double patenting rejection of those claims has been withdrawn.

5. Applicant's arguments with respect to claims 1, 2, 4, 5 and 10-19 have been considered but are moot in view of the new ground(s) of rejection.
